REDUCED STUDIO
CHARGE

****NOT FOOD SAFE OR WATERPROOF**

Studio charge applies per item. All pottery is glazed and fired on completion. Your pottery will be available for collection up to 14 days later, or you can have your items posted at an extra charge. Ask a member of studio staff for more details.

HELPFUL HINTS & TIPS

Please wash your hands before and after painting

Avoid baby wipes / hand wipes and hand creams as these can reject paint

Feel free to bring refreshments over from the cafe whilst you paint

Items take up to 14 days to fire, they will then be ready to collect or post

During busy times collection dates may alter - please check the studio blackboards

We will store your ceramics for a maximum of 8 weeks from the collection date

When finished, please clear your table and any equipment used

NEED TO KNOW INFO

Sketch out designs in pencil first - light pencil marks will fade away during firing

Feel free to check out our finished examples for inspiration

Colours are more vivid after firing as shown on the colour charts provided

Shake paints well before use and make sure your paintbrush is clean

Don't panic if you make a mistake - they can easily be washed off

Light coloured paint won't show over dark

Paint colours can be mixed, or try adding water to create a lighter shade
